Extensive experience in customer service, networking, sales, office management and graphic design. Passionate, self-motivated multi-tasker - jam packed with numerous transferable skills. Charismatic, approachable, productive and supportive.

Technically competent - MAC and PC proficient. Always eager to learn new things. Adaptable to change. Already a bit diverse in my knowledge and experience; but always willing to cross-train and adapt to the changes that come with any position.

Below are examples of my most recent work experience, not included were short term, contract, or seasonal positions that filled some gaps. The ones not listed include a valet / porter position at a casino / hotel, production management position at a print shop, a customer service position at a call center, a retail position at a tea shop, and a quality assurance position at a meat packing plant.
